

The "Archaea Theme Group" of the French Society of Biochemistry & Molecular Biology presents

2023 Webinar Series of young researchers

12 am to 1 pm on Thursdays

Zoom link : <https://cnrs.zoom.us/j/96679204523?pwd=Vks4VjMrTkRkRmJCLzFqQVo4Zz09>

MARCH 9TH

Duy Khanh PHUNG

(Equipe F. Werner, RNAP laboratory, Institute for Structural and Molecular Biology, University College, London)

Archaeal NusA at the Transcription and Translation Crossroad

MAY 11TH

Violette DA CUNHA

(LABGeM, CEA/Institut François Jacob, Genoscope, Evry)

ModelOmics: approaches in environmental genomics for modeling the metabolism of microbial communities and studying its evolution in ecosystems

JUNE 15TH

Virginie PILLIOL

(laboratoire MEPHI (IHU Méditerranée Infection) Marseille)

Methanosphaera massiliense sp. nov. questioned zoonotic sources of methanogen

JULY 6TH

Benjamin HEPP

(Equipe J. Oberto, I2BC, Gif-sur-Yvette)

Characterization of a hyperthermophilic suicidal integrase involved in homologous recombination

OCTOBER 5TH

Logan MC TEER

(IFREMER - LMEE - UMR Biologie et Ecologie des Ecosystèmes marins Profonds, Brest)

Caractérisation de l'initiation de la réplication chez une archée hyperthermophile et piézophile provenant d'une source hydrothermale en eaux profondes (Thermococcus barophilus).

DECEMBER 7TH

Catherine Badel

(UMR 7156 GMGM, Team AIME, Strasbourg)

Dégradation des composés organohalogénés par les Archées

A reminder will be sent through the mailing list gt_archaea_sfbbm@listes.ifremer.fr

To register to the mailing list send a message to sympa@ifremer.fr with the following message

objet: subscribe gt_archaea_sfbbm First Name Last name
